Subject: trip to Austin

Hi Team, Hey Adam,

There is interest in the enviro community in having us come down to Austin to talk about Texas air issues.

The enviros have a bunch of questions and suggestions about our Texas air permitting reform work, the new work to do GHG permitting in Texas, what is going to happen after January 2011, startup/shutdown emissions, and other issues.

I have checked my calendar and I can make the following dates in December work for me: Dec 2, 3, 6, 7 (afternoon), 13, 14, 15, 16 (afternoon), 17.

After the 15th, I believe that Larry is on travel, although I think we can manage without his good services if we need to on the 16th or 17th.

Janet has agreed to call-in and will be talking about the national GHG strategy.

Could you check your calendars and let Layla know which days work or don't. If none do, please check with your deputies or a branch chief.

(and Adam, I [REDACTED]
[REDACTED]. I'm sure they'd like to see you as well if you could make it. Kelly has a lot of complaining to do about MSS emissions.)

The meeting would probably be 2-3 hours, which would give you time to conduct other business in Austin (with your TCEQ counterparts for example) if you wish.

Best to all.

Al

Vickie - it would be a pleasure. And so far, both days appear to be totally open. So you can name the date and time.

Had a lovely, very quiet Thanksgiving. Hope yours was just as nice.

Cheers

Jim

Hi Jim, EDF's clean air team is meeting in the Boulder office on Jan 12 and 13. Would you consider stopping by the office either the morning of the 12th or 13th to spend 45 minutes sharing your thoughts about the most pressing issues? It would be incredibly helpful for the EDF crew to hear and learn from you. I hope the past few days were full of joy. Best wishes, Vickie
