Hi Darlene,

I saw you just sent an invite, but the date/time seems to be wrong. As you see in my email below, Ivan is not available until **the afternoon of March 29**.

Darlene,

Right now, we are looking at the afternoon of May 29. From ORD, Rusty Thomas, Matt Martin, and I will attend. Ivan Rusyn will be our external participant. We can add him to the agenda after the meeting is set.

Thanks so much for your help.

Tina and David,

I can assist with scheduling the OPP meeting attendees.

Tina

Thanks for carrying this forward. Please do set up the meeting on IARC with Ivan, Matt and OPP. And please do invite me to it. We need to come up with better engagement on IARC.

When is the meeting in June- I may be able to get there in addition to OPP.

I think doing this sooner in May with Ivan on video would work.

If he is here later in month, and can meet Jim then, also good.

Tina and Jack-

Ivan reached out to me several weeks back and we began scheduling something. And he also talked directly to Jim and so now that is part of what Bill is setting up for OCSPP.

May 28 is not necessarily a good date for us, so thanks for working with us and stay tuned.

Jack,

I understand David Dix (with you) is coordinating an OCSPP focused discussion on this topic to include Ivan Rusyn. So, I'll stand by and let it unfold. Rusty, Matt, and I will be glad to participate and help in any way.

Thanks,

Tina

Subject: RE: IARC

Jack,

At SOT, we had the opportunity to talk to Professor Ivan Rusyn who has participated on a number of IARC committees and is one of the coauthors of **IARC Monographs: 40 Years of Evaluating Carcinogenic Hazards to Humans** (<http://ehp.niehs.nih.gov/1409149/>). He offered to come in and describe/discuss the IARC process. He will be in town May 28th. Does this date work for you? If you prefer to meet earlier, we can bring him in by video. Matt Martin will also come up with Rusty.

Thanks,

Tina

Subject: IARC

Jack,

I spoke to Rusty and Bob -- we will look to schedule something with you and your team and Matt Martin to debrief on the IARC process. The IARC glyphosate evaluation might prove informative for future assessments. Who from your side can help coordinate the schedules and participation of relevant OPP colleagues?

Thanks,
Tina
