General intro to 4.3 and DZN Section 4.3 kzg.docx

Dear Ivan and Matt,

Thank you— fantastic!! I append my suggested edits on the DZN write-up for your consideration. I will post all these files to IOPS. I hope we can discuss tomorrow afternoon following a (hopefully quick) second review of TCVP.

I greatly appreciate your effort as well as patience during the discussion this afternoon. Progress!

A demain,
Kate

Subject: 4.3 writeups

Matt and Kate,

See attached.

DZN file has the “intro” 3 pages. Other files have just images and “key characteristics” and mapped assays descriptions. I did not bother with the result description (now as I think about it there may be a “malathion” carry-over from file to file stating that) as we need to make sure all folks look at these and agree to proceed.

See ya tomorrow.

Ivan
