[LANCET IARC MG112.pdf](#)

Hi Brenda, Hope you are doing well. Interesting that so many folks are getting word of this especially non-scientists (i.e., general public). Here is the Lancet Oncology write-up of the monograph. I think it summarizes things fairly well. I would have to coordinate and discuss the process and findings with whomever.

(b)(5) deliberative process

Happy to discuss further.  
Take care,  
Matt

Hi Monica,  
How are you?

(b)(6) personal privacy

Can you help me w/ the email below? Is anyone in ORD Chemical program working on glyphosate?

Thanks!-bg

Any ORD research on glyphosate that can be presented during a monthly managers mtg ? We can do a VTC with the research scientist.

Cecilia - just a thought for a non-traditional topic for a mgrs mtg. I am getting a lot of questions from friends, family, neighbors and when I'm out doing speeches about WHO's recent statements about glyphosate and Roundup. Would be interested in our pesticides folks and/or ORD say about its use.

I think it is useful to have a science or regulatory topic every so often.

Thx
