TLO vol 112 13 March 2015+HK.docx

Hi Kathryn,

The write up looks pretty good. In the attachment my comments in track changes in the word document. I missed a few lines (short paragraph) on the issues we wrote up on exposure assessment and the multiple exposure situations all epi-studies have to deal with. I think it would be good to have that in the Lancet Oncology as well.

Best and good luck with the submission, Hans

---

Subject: IARC Monograph vol 112- Lancet oncology article draft

Dear all,

We thank you again for your outstanding contributions to the IARC Monograph volume 112 meeting!

We provide for your review and comment no later than Monday COB in your time zone a draft of the Lancet Oncology article. We ask for your feedback using track changes, preferably using the google doc sent separately or in the appended Word file. Please turn on track changes before entering any suggested edits. We strongly prefer direct edits to the text but will attempt to address any comments as well.

Please be reminded that the information summarised herein is strictly embargoed until the Lancet Oncology article is published online. We will be pleased to inform you when this has occurred.

My very best regards,  
With thanks to you all,  
Kate
