Hi Matt!

We were thinking that it may be best for us to give the IARC perspective on the overall evaluation— I'll respond to Sue that I'd be willing to do it.

Hope you are well!

Best,  
Kate

**Subject:** Glyphosate

Hello to you both.

Alethea Tsui-Bowen with EPA suggested that one of you may be willing to speak at our upcoming teleconference. I co-chair a national group of State Risk Assessors & Toxicologists from all 50 states, with ~250+ members. We host quarterly teleconferences and our next one is scheduled for July 21<sup>st</sup> from 1:00-3:00 ET. One of the topics that was proposed for our next call was to have someone from IARC discuss the weight-of-evidence for glyphosate, since IARC concluded that there is, "*sufficient evidence of carcinogenicity*" but EPA classifies it as group E, "*evidence of non-carcinogenicity in humans.*"

<http://www.iarc.fr/en/media-centre/iarcnews/pdf/MonographVolume112.pdf>

If either of you would be willing to speak/present, please let me know. You would have 30-45 minutes.

Thank you in advance for your consideration.

**Sue**
