Thanks for carrying this forward. Please do set up the meeting on IARC with Ivan, Matt and OPP. And please do invite me to it. We need to come up with better engagement on IARC.

When is the meeting in June- I may be able to get there in addition to OPP.

I think doing this sooner in May with Ivan on video would work.

If he is here later in month, and can meet Jim then, also good.

David

Tina and Jack-

Ivan reached out to me several weeks back and we began scheduling something. And he also talked directly to Jim and so now that is part of what Bill is setting up for OCSPP.

May 28 is not necessarily a good date for us, so thanks for working with us and stay tuned.

David

Jack,

I understand David Dix (with you) is coordinating an OCSPP focused discussion on this topic to include Ivan Rusyn. So, I'll stand by and let it unfold. Rusty, Matt, and I will be glad to participate and help in any way.

Thanks,

Tina

**Subject:** RE: IARC

Jack,

At SOT, we had the opportunity to talk to Professor Ivan Rusyn who has participated on a number of IARC committees and is one of the coauthors of **IARC Monographs: 40 Years of Evaluating Carcinogenic Hazards to Humans** (<http://ehp.niehs.nih.gov/1409149/>). He offered to come in and describe/discuss the IARC process. He will be in town May 28<sup>th</sup>. Does this date work for you? If you prefer to meet earlier, we can bring him in by video. Matt Martin will also come up with Rusty.

Thanks,

Tina

Jack,

I spoke to Rusty and Bob -- we will look to schedule something with you and your team and Matt Martin to debrief on the IARC process. The IARC glyphosate evaluation might prove informative for future assessments. Who from your side can help coordinate the schedules and participation of relevant OPP colleagues?

Thanks,  
Tina
