See the note from Ivan below

The JMPR should have something out as early as this week so we will want to consider it at the CARC

Also useful stuff on diazinon and malathion

Dear Jack,

I hope you had a good summer and had a chance to look through the IARC monograph on glyphosate. Do let me know if there are any questions that you or your staff may have.

As you may know, there is quite a debate in Europe surrounding the BfR draft assessment report on glyphosate renewal. I was asked to appear at the hearings in Bundestag on September 28 (see attached invitation and a list of questions; I did submit answers and they will be part of the public record after the hearing) and I am trying to catch up on where the government action is on this. I recall Jim Jones saying in an interview published by Reuters that EPA will release its re-assessment in July. Please let me know if that did in fact happen, or whether you have another date.

Also, you may be interested to know that a JMPR Expert Taskforce on Diazinon, Glyphosate and Malathion ([http://www.who.int/entity/foodsafety/areas\\_work/chemical-risks/etc\\_final\\_new\\_1.pdf?ua=1](http://www.who.int/entity/foodsafety/areas_work/chemical-risks/etc_final_new_1.pdf?ua=1)) conclusions should be released very soon as the group finalized them last week.

Thank you and best regards,

Ivan
