PAR-Section 4-3-2ndDraft R2.doc  
TCVP-Section 4-3-2ndDraft v1.doc

Dear Matt and Ivan,

These have improved greatly— thank you for your efforts! Please see my comments on the TCVP and PAR write-ups. The TCVP comments on the first sections apply to all.

For the data presentation there is some variability in order, but for consistency I suggest activity and # of assays (of how many and which were included), details on where activity was seen, comparison to other chems.

I hope it won't be too much trouble to address these. I apologise that it has taken me a while to find a quiet moment to read and comment on these drafts.

I've also posted them to IOPS if you find it more convenient to go there for files.

See you in the am,  
Kate
